

Bluebeam Studio

Document-based collaboration tailored to the way you want to work.

Bluebeam's Studio™ Platform helps teams and organizations manage projects anywhere, at any time, from a desktop, Windows tablet or iPad. Upload and manage your files for easy sharing, and markup the same documents with project partners in real time. With scalable cloud- and server-based options, plus customizable administrative functionality, you decide how much control you want. Collaborate in the way that works best for you with Revu's integrated cloud-based Studio, or enhance your workflows with one of these advanced Studio options: Studio Prime and Studio Enterprise.

BLUEBEAM STUDIO

Included with every license of Revu, Bluebeam Studio pushes the limits of cloud-based collaboration. Upload and share an unlimited number of PDFs and any other file type, or collaborate with project partners on the same documents in real time—regardless of Internet access.

STUDIO SESSIONS

Document-based online collaboration in real time.

STUDIO PROJECTS

Document management system for PDFs and other files.

Advanced Studio Options

STUDIO PRIME

Take the next step in digital collaboration. Studio Prime is a cloud-based subscription solution that includes all the features of Studio, plus additional administrative functionality. Gain more control over your organization's Studio Projects and Sessions and access the Bluebeam Studio API, which supports external application integrations.

STUDIO ENTERPRISE

Need on-premise control? Manage your organization's Studio Projects and Sessions behind your own firewall. Studio Enterprise is for businesses that want to use Bluebeam Studio on a local server. Easily control security and access, monitor Studio activity, and set user and file permissions.

There are no limits to what you can do when leveraging the combined powers of Bluebeam Revu and Studio.
